

SEEING — THE — UNSEEN

A Summit on Fetal Alcohol Spectrum Disorders (FASDs)

Did you know that Fetal Alcohol Spectrum Disorders (FASDs) affect 1% to 5% of first graders in the U.S.? FASD is 100% preventable and 0% curable. There is no safe amount of alcohol to consume during pregnancy. FASD is a lifelong condition. Please join us to learn about this preventable disorder, how you or your agency can increase awareness and prevention efforts and become a FASD and SBIRT Champion.
